

## About Us

The Associated Schools of Construction is the professional association for the development and advancement of construction education, where the sharing of ideas and knowledge inspires, guides and promotes excellence in curricula, teaching, research, and service.

### Membership

Build a professional network and join a vibrant association of construction practitioners through membership in the Associated Schools of Construction. Membership in the ASC can help position you for greater success through career-enhancing tools and resources.

Through member participation, ASC is able to build on the value of our profession in the academic and professional marketplace and fortify our commitment to excellence!
